Arboretum Ventures named one of the Top 100 Venture Capital Firms for Entrepreneurs

Ann Arbor Michigan, September 10, 2007 – In the July issue of Entrepreneur magazine, Arboretum Ventures was named one of the top 100 venture capital funds for entrepreneurs. This honor is shared with other notable venture funds including Kleiner Perkins and Sequoia Capital. The list was developed based on data collected by “MoneyTree Report” from Pricewaterhouse Coopers and the National Venture Capital Association. The rankings are based on the number of first-time fundings to companies in startup and early stages of development made by VC firms in 2006. 799 startup and early stage companies were funded in 2006, an increase over the 608 companies funded in 2005. On average, each of the 2006 companies received \$4.1 million in funding.

Arboretum Ventures is an early-stage venture capital firm specializing in the healthcare sector. Arboretum primarily focuses on investments in medical technology and healthcare services. Founded in 2002 and located in Ann Arbor, Michigan, the firm invests throughout the United States, with a special interest in the Midwest region. Arboretum currently manages \$73 million in committed capital.
